REEVES CONSTRUCTION COMPANY OF COLAS USA ACQUIRES SEABOARD CONSTRUCTION COMPANY

DUNCAN, S.C. – Reeves Construction Company of Colas USA, a leader in road construction, materials and innovation has announced the acquisition of the assets of Seaboard Construction Company, a division of Plant Improvement Company, Inc. located in Brunswick, Georgia.

Seaboard has an outstanding reputation throughout Southeast Georgia thanks to its proven quality and reliability. It will become a part of the Coastal Region of Reeves.

“Reeves was chosen because of their shared values of safety, quality and customer service. We are confident that they understand and value the talented team at Seaboard and provide a continued opportunity for success.” said Steve Shepherd, President of Plant Improvement Company, Inc.

By joining Reeves, Seaboard has become a part of the international Colas Group, with operations in 55 countries throughout the world.

“Bringing Reeves and Seaboard together will result in an even stronger team that can better serve our customers in Coastal Georgia. We welcome the exceptional people who have led Seaboard to be a strong, well-respected organization.” said Zach Green, President of Reeves Construction Company & Executive Vice President of Colas USA

###

Reeves is a regional leader in infrastructure improvements across the Southeast and Midwest. Reeves is a subsidiary of Colas, a global leader in infrastructure construction and maintenance. Reeves performs all phases of infrastructure and transportation work, from road and bridge construction, clearing, grading, draining, and asphalt paving for private, local, state, and federal entities.
